- f) The Games & Sports activities are taken up in the school between 4.45 PM to 5.45 PM. Principal should actively participate in the activity by playing games regularly at least for half an hour with the students. The Principal should encourage all other teachers also to play games during the games hours. This is considered essential not only for the physical and mental health of the Principal and teachers, but it will create a healthy atmosphere in the entire institution. In the games time, the teachers and students mingle up freely and direct communication is established between the Principals and students. Keeping in view, the fact that the students are from weaker section families and some of them may be low on confidence, it is of utmost importance that Principal must participate in the games and develop a direct channel of communication with the students. This is the place where, if proper rapport is established between the Principal and the students, the students will immediately approach the Principal without hesitation for any of their problems. Unless this kind of confidence is built, a residential school cannot be managed efficiently.
- g) During the post lunch 2.30 PM to 4.30 PM and night study hours, i.e. 7.00 PM to 9.00 PM, the presence of the Principal is a must in the institution.

But such sharing should not be on permanent basis and the Principal should look into the routine work of all classes by rotation.
- i) The Principals have to prepare a home work time table for their schools i.e. guidelines for giving homework and collection of homework notebooks for scrutiny and return.
- j) On any particular day, if the Principal is prevented physically from performing any or all of the daily activities mentioned above, the Assistant to Principal (ATP) should automatically supervise the activities. If ATP and Principal both are not available, whosoever is in charge of the school, should attend to all the items of work indicated above except classroom teaching and classroom observation.
